PLEASE BRING REQUEST FORMS, PREVIOUS SCANS AND XRAYS FOR COMPARISON.

EXAMINATION PREPARATIONS

**X-Ray / Dental Imaging**

No appointment necessary.

X-rays do not require any special preparation. Metal objects such as watches, keys, coins and jewellery will show up on the x-ray affecting the images and therefore may need to be removed.

**Ultrasound**

If you have been referred for an Ultrasound Scan by your doctor, please contact your preferred Vision Radiology site for bookings.

- For upper abdomen studies (such as liver, spleen, gallbladder, and pancreas) do not eat, drink or smoke for 6 hours before your appointment. Continue to take any medication.

- For lower abdomen studies (such as pelvis, pregnancy, kidney and prostate) you must have a full bladder at the time of the appointment. Empty your bladder 1½ hours before your appointment and then drink 1 litre of water, finishing 1 hour before your appointment time.

**Do not empty your bladder after this.**

Generally, you will be most comfortable if you wear loose fitting clothing.

You will need to remove clothing and jewellery in the area to be examined and will be provided with a gown to wear.

**CT SCAN**

CT Brain/Neck/Chest/Abdomen/Pelvis

Nothing to eat 2 hours prior to examination.

**WE ONLY USE ULTRA LOW-DOSE CT AT VISION RADIOLOGY**
